

Ambassador SERIES

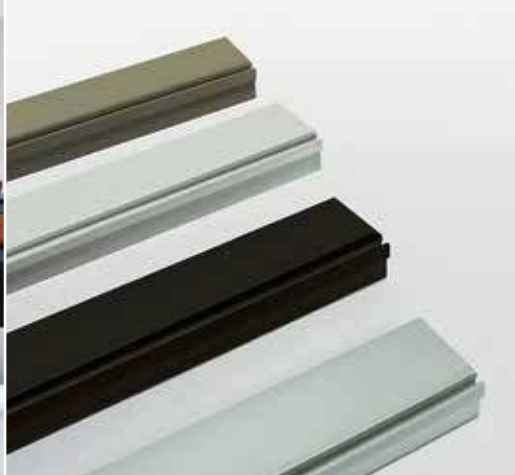

Providing the widest selection of quality vinyl and aluminum window & door products.

INTERNATIONAL
WINDOW

Ambassador 8200 SERIES

The Ambassador Series, which features our innovative Isobar ThermoTech™ design, is a high-performance aluminum window that is energy efficient as well as meets the color requirements of an interior designer. With its dual design extrusions, you can mix earth tones on the outside with neutral colors on the inside. When energy efficiency is a priority or requirement, the Ambassador Series can meet these demands.

Dual Color Options: Our ThermoTech process enables you to match to both exterior & interior color schemes

J = Mojave Beige

W = White Paint

P = Bronze Anodized

A = Clear Anodized

**For Dual Color options, specify exterior / interior finish (i.e. J / W)*

8880 and 8881 Ambassador Multi-Slide Doors

Designers and Architects love the thermal values that the 8880 and 8881 provide, while homeowners embrace the slim lines that afford them the beautiful views of their world. IWC has designed a product that is truly your "Window to the World".

Whether your view is of the ocean, the desert, or the mountains, you'll view it beautifully through the Ambassador Multi-Slide. A true luxury door that affords you the ability to enjoy your views while helping to keep you cozy in the winter and more comfortable in the summer.
