

The background of the advertisement is a photograph of a modern, multi-story apartment building. The building features a mix of light gray and white exterior panels, with numerous windows and balconies. Some balconies have metal railings, while others have glass railings. In the foreground, there is a courtyard area with artificial grass, a paved walkway, and a black metal pergola structure. A woman is sitting on a wooden lounge chair under the pergola, looking at a tablet. Two other people are playing a ball game on the grass. The overall scene is bright and sunny, suggesting a pleasant living environment.

MILGARD®

V450 Series

VINYL WINDOWS AND PATIO DOORS

VERSATILE DESIGN
TRUSTED QUALITY
DEPENDABLE PERFORMANCE

By MITER Brands™

V450

WHY WE'RE THE RIGHT CHOICE.

MILGARD offers beautiful, worry-free windows and patio doors to frame each of life's little moments. Our exacting manufacturing processes and the innovations we develop mean you get reliable windows and doors that perform year after year. With MILGARD, you'll receive a level of service and quality others simply can't match, backed with an industry-leading warranty.

100

MILGARD®

Framing possibilities in a new light

The path to delivering the right window and door solution has never been more clear. MILGARD delivers reliable, high-performing products built to meet the demands of today's projects. With precise manufacturing processes and continuous product innovations, we ensure consistent quality and long-term performance you can count on—backed by responsive service and an industry-leading warranty. From residential developments to large-scale projects, you'll find the products and support to deliver with confidence.

**EXPERIENCE
IS EVERYTHING**

With decades of proven results and a reputation built on reliability, we're the partner you can count on—project after project.

**CONFIDENCE TO
CREATE**

Every detail matters. From robust testing and precision manufacturing processes to a relentless pursuit of quality, our products are designed to perform, so you can focus on building.

**EVERY DETAIL,
EVERY DAY**

Our experts collaborate with you to match the right products to the right project—balancing design, performance, and budget—while delivering the service and support your business requires.

Designed to deliver. Every time.

The V450 Series is built on durable vinyl construction with multi-chambered frames that support strength and efficiency. With advanced spacer technology for long-term seal performance, multiple color options for design flexibility, and hardware that balances security with a clean profile, the V450 provides a reliable solution for a wide range of projects.

INSTALLATION CONFIGURATIONS

Choosing the right frame type doesn't need to be complicated. The V450 Series offers multiple installation options to suit different project requirements—whether you're working on new construction, remodels, or masonry applications.

Block

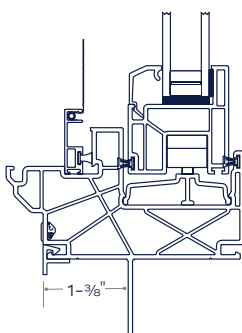

Commonly used in replacement projects, this option fits into the existing frame to preserve both interior and exterior finishes.

1 3/8" Mounting Fin Set-back

Nail Fin

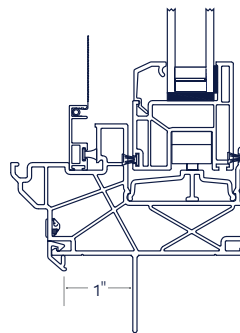

A standard choice for new construction or remodels with open studs. The fin fastens directly to the rough opening for a secure installation.

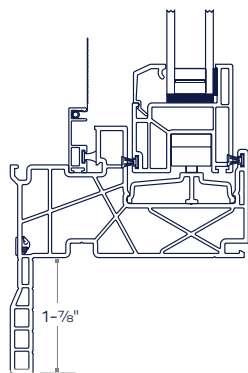

1 3/8" Mounting Fin Set-back w/ Stucco Key*

Z-Bar

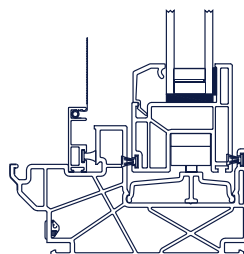

Designed for masonry or stucco applications, the exterior flange covers and seals the frame for a clean, finished look.

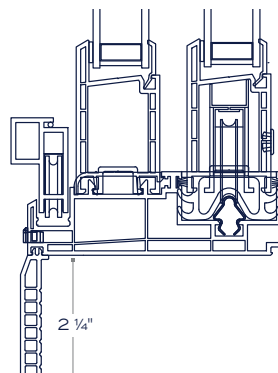

1" Mounting Fin Set-back

1 7/8" Contoured Flush Fin*

Block

2 1/4" Contoured Z-Bar

* Available on windows only

** Wide flush fin available on V400 door only

OUR APPROACH

The V450 Series is engineered to perform where it matters most—sealing out the elements, supporting energy efficiency, and maintaining long-term reliability. With proven construction and thoughtful details, these windows deliver the consistent results today's projects demand.

Window features

1 VINYL FRAME

Welded, multi-chambered vinyl frame and sash built for strength, durability, and thermal performance.

2 SECURE SEAL

Recessed lock and keeper hardware for a clean look and tighter, more reliable closure.

3 WARM-EDGE SPACER

Improves seal performance of insulated glass units while enhancing overall efficiency.

4 ENERGY EFFICIENT

Our products are engineered to help meet today's most stringent energy codes with performance designed for regional climates.

5 LIFETIME LIMITED

Backed by MILGARD's commitment to long-term product support.

Options that fit every project

The V450 Series offers a range of operating styles designed for dependable performance and ease of use on the jobsite. Hardware options are engineered for smooth operation and secure closure, with finishes that coordinate across applications for a consistent look.

Finishes that perform

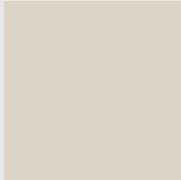

The V450 Series offers a range of finish options designed to complement project requirements while delivering long-term durability. With color-matched interiors and exterior choices that stand up to the elements, these finishes give you flexibility without sacrificing performance.

VINYL EXTRUSIONS

Solid vinyl extrusions provide consistent color distribution inside and out. Available in White or Adobe, both options include color-matched interiors for a cohesive look.

Solutions for your home and climate

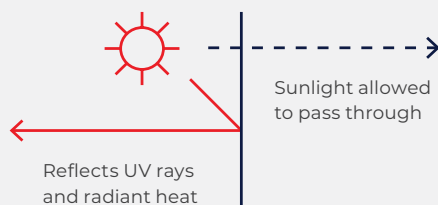

The 450 Series includes customizable components for added beauty, comfort and peace of mind. Selecting the right details can bring immediate and long-term benefits to your new windows.

ENERGY EFFICIENCY

Our products are engineered to help meet today's most stringent energy codes. Warm-edge spacers reduce conductivity, improve argon gas retention, and increase condensation resistance. Low-E coatings reflect heat while allowing in natural light—supporting efficiency and comfort across a wide range of climates.

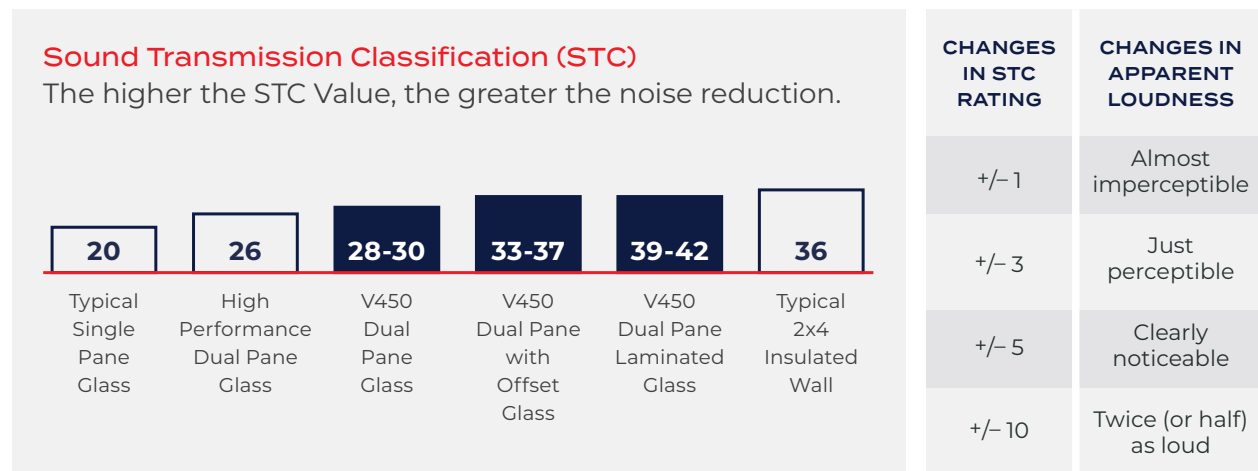

What is Low-E?

Low-E glass blocks the bad stuff and lets in only the light you want.

NOISE REDUCTION GLASS

Select glass configurations designed to help reduce exterior noise intrusion, with performance ratings up to STC 42. These options support acoustic comfort while maintaining energy performance, providing a practical, cost-effective approach to sound control.

Sound reduction in windows and doors is tested and most commonly rated for comparison using a Sound Transmission Class (STC) rating. V4550 windows are tested and rated to ASTM E(90) for Sound Transmission (test sizes per ASTM E1425). STC ratings will vary by product type. Data compiled from stcratings.com

GRIDS

Grids between the glass provide easy cleaning and low maintenance, while simulated divided lites (SDLs) offer a more traditional appearance.

OUR COMMITMENT TO YOU

We have a dedication to quality and build our windows and patio doors to last. With the V450 Series, you're covered with our Lifetime Limited Warranty. See complete details at MILGARD.com/warranty

See complete details at
milgard.com/warranty

OUR GOAL IS 100% TROUBLE-FREE

With a goal of 100% trouble-free, our teams work tirelessly to help ensure your project stays on track.

From regular inspections and quality audits throughout the manufacturing process, we strive to ensure that the final product you receive meets our high standards.

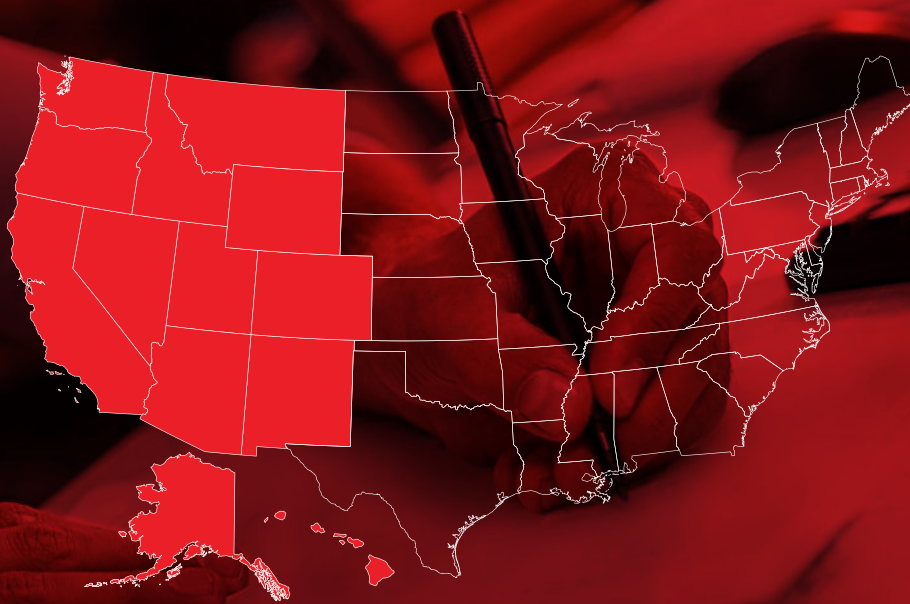

In addition, most MILGARD windows and patio doors carry the American Architectural Manufacturers Association (AAMA) Gold Label to show they have met their strict requirements, which are tested and certified by a third party. This rigorous testing includes water penetration, air leakage, structural integrity, and forced entry resistance.

Backed by MITER Brands

Nationwide strength, regional expertise – windows and doors for every project. At MITER Brands, we bring together the power of MI, MILGARD, and PGT to redefine the window and door industry. With a commitment to precision manufacturing, uncompromising quality, and continuous innovation, we deliver solutions that builders and homeowners trust.

With nearly two dozen fabrication centers across the U.S. and parts of Canada, we provide energy-efficient, high-performance windows and doors tailored to regional needs. Our diverse product portfolio—including vinyl, aluminum, and fiberglass windows, sliding and swinging patio doors, and moving glass wall systems—ensures the right solution for every project.
