5025 Florence Street, Suite D
Denver, CO 80238
Phone: (303) 576-9200
Fax: (303) 576-9222

The **CS Cavity Slider™** is a practical solution for those areas where there is not enough space for a swinging door. Unlike other pocket systems, the CS Cavity Slider™ is structurally robust due to its construction from aluminum extrusions.

This product is supplied as a kitset and is easy to assemble and install. The pocket frame accommodates 1-3/8" and 1-3/4" doors (35 & 44.5mm) up to 4'0" x 8'0" (1220 x 2438mm) and can be cut down to size on site.

The CS Cavity Slider™ is suitable for residential and commercial projects as it meets Type 1 construction code without any combustible materials. In addition to its space saving attributes in restrooms, hallways and laundries, it can be used with confidence for architectural feature openings around your project.

CS Cavity Slider™ with glazed aluminum door and CL100 ADA LaviLock handle.

Bi-Parting CS Cavity Slider™ with glazed doors & CL200 handles.

CS Cavity Slider™ kitset box.

CavitySlider™ Features

Corner joining brackets ensure precise right angled assembly

Smooth running carriages with encased ball bearings.
Up to 500lb (240kg) capacity

SofStop®
Soft Close/Soft Open also available

Extruded aluminum track incorporated into head unit

T-joining brackets for easy assembly of slats to split jambs & back stud

Split Jambs and slats use hollow core technology for superior rigidity

Horizontal slats for added strength

Door Thickness
1-3/8" or 1-3/4"
(35 or 44.5mm)

Strong aluminum frame complies with *Type 1 Construction*

Trim Clips for quick & easy trim fitting

Compatible with 3-1/2" and 3-5/8" wood or steel stud

Bottom plate assembly

Adjustable T-Guide

CavitySlider™ Technical Info

Rough Opening

DH = Door Height
DW = Door Width

Standard CS Track Features

Our engineers focus on constantly developing new products and refining existing ones. That's why our products come with a number of unique features:

- 1 Heavy duty one-piece extruded aluminum track.
- 2 Minimal clearance means the carriages/wheels cannot jump off the track or jam.
- 3 Large diameter wheels with precision ground bearings make for smooth running.
- 4 Radiused track reduces friction and allows dust to be pushed into the gutters so the door always slides smoothly.
- 5 M8 body made from cast stainless steel for strength and reliability. 4-wheel carriages are standard on all doors over 200lb.
- 6 CarriSnap™ quick release system allows the door to be removed easily from the track; no need to unscrew anything and lose door height adjustment.

How to Order

1. **Choose Size:** Frames can be cut down on site. Maximum size for each model shown below:

ABS Model	Door Size
13400	2'0" x 6'8"
13402	2'4" x 6'8"
13404	2'6" x 6'8"
13406	2'8" x 6'8"
13408	3'0" x 6'8"

ABS Model	Door Size
13412	2'4" x 8'0"
13414	2'6" x 8'0"
13416	2'8" x 8'0"
13418	3'0" x 8'0"
13419	4'0" x 8'0"

2. **Choose a carriage pack** (one per door) (includes carriages, mounting plates, T-Guide, fixing screws and adjusting wrench) Packs are available with 0, 1 or 2 track stops.

Standard	M6 (200lb) M8 (500lb)	
SofStop® Single	Minimum Door Width	
Soft Close	Single	Bi-Parting
176lb 0 - 176 lb	25"	28"
264lb 176 - 264 lb	28"	31"
SofStop® Twin	Single	Bi-Parting
176lb 0 - 176 lb	33"	36"
