

Security made simple

Yale is trusted by millions of people every day to keep what's important to them safe.

Our innovations have protected their homes, families and belongings for over 180 years. We have expanded from being a leader in mechanical lock engineering to innovating connected smart locks and homes. Because we always make every effort to push the boundaries in a changing world.

We were there for your grandparents (and probably theirs) and we'll be there for your children.

Today, and every day to come.

Security made simple

An ecosystem of smart home security solutions.

One app, for all your devices, from anywhere.

Experience the convenience of controlling and monitoring your entire Yale Smart Security System from the palm of your hand using the Yale Home app for a seamless user experience. Easily manage your smart devices and stay connected to your home and family, even when you're away.

Security, on your terms.

Effortlessly build a smart home security ecosystem that suits your needs within the Yale Home app. With seamless interaction between Yale products, your Smart Alarm will automatically disarm and your Smart Indoor Camera will go into privacy mode the second your door is unlocked using the Yale Linus® Smart Lock L2. Your privacy stays protected at home, and your home stays secure while away.

Smarter connections for a seamless experience.

Enjoy smooth integrations with Yale partners such as leading voice assistants, Airbnb and Philips Hue smart lighting, giving you an added layer of security, convenience and configuration to suit your lifestyle.

Yale Smart Security Ecosystem

High quality. Easy installation.

Get peace of mind with over 180 years of expertise behind our state-of-the-art technology. Our products are created to offer an easy, straight-out-of-the-box installation experience and a simple setup within the Yale Home app. The hassle-free installation makes it ideal whether you rent or own your home.

Modern design to match your home's style.

Perfectly complement your home's interior design with our sleek and elegant products without compromising on functionality. Our Yale Smart Outdoor and Indoor Cameras have won the internationally acclaimed Red Dot Design Award for blending high performance with beautiful design.

reddot winner 2023

Options for advanced security.

Our subscription plans offer enhanced features at different levels to tailor your home's security. Choose from additional AI features like vehicle and parcel detection and Cloud Recording for the Smart Cameras and Video Doorbell. Options for the Smart Alarm include Cellular Communications for system connectivity, Automated Call Alert during alarm activation and third-party Professional Monitoring* for peace of mind.

*Check Yale website for availability in your country.

The latest evolution in world-class keyless smart door locks

Keyless access, conveniently shared and monitored in the app.

With the Yale Linus® Smart Lock L2, feel the magic of your front door unlocking automatically as you approach your home. And never worry about forgetting to lock your door again when you leave – it can lock at a chosen time, on a timer, or instantly with DoorSense. Use the Yale Home app to manage access of trusted visitors with digital keys and/or codes, check door status, and receive smart alerts wherever you are. The Activity Feed keeps track of when the door locks and unlocks, as well as your registered Yale Home app users that enter.

Style that complements any home.
Design that fits a wide range of doors.

Easier to install and operate, faster, quieter and stronger than the first-generation Yale Linus® Smart Lock, the smart lock is designed to be up and running in no time, with no modifications needed on your door and can be removed without leaving any marks, making it perfect for renters or homeowners.

Featuring a stylish, sleek and narrow look, it grants uninterrupted security and convenience with a long-lasting rechargeable battery for keyless access on a single charge.

Yale Linus® Smart Lock L2

A smart lock to match your lifestyle.

Customise your security to work around your needs. With the Yale Home app, easily programme your device to lock or unlock at certain times of the day, such as setting your smart lock to secure your home as you go to sleep and scheduling it to unlock just as you're ready to leave the house for work.

Tap your phone on the Yale Dot® to unlock and lock your door. Place one on your car dash so you can unlock and lock as you drive home or to work. Or place a Yale Dot® outside your door to let trusted visitors tap to unlock within a scheduled timeframe of your choosing – ideal for guests! The Yale Smart Keypad is perfect for kids to enter your home without a smartphone or keys.

Enhanced connectivity for an even smarter home security.

Design your perfect smart lock experience. The Yale Linus® Smart Lock L2 offers you multiple connectivity options, including built-in Wi-Fi and Bluetooth. Thanks to its interoperability, it's simple to control your entire Yale Smart Security Ecosystem through the Yale Home app. It also integrates with leading voice assistants, Airbnb and Philips Hue smart lighting, just to name a few, for a truly seamless security experience.

State-of-the-art technology. Top-of-the-line alarm.

Customised security for greater control.

With the Yale Smart Alarm and the Yale Home app, you can monitor your home in real time with push notifications sent directly to your phone when the alarm sensors are triggered, as well as arm and disarm your alarm from anywhere in the world. Extend your security within up to four individually configured areas around your property.

Each area supports arming when you're away, disarming when you return home, and part-arming when you're home but still want additional security. For example, when working in your ground floor office at home, you can set your alarm to protect unused areas, such as the second floor, your garage, and the outside of your property for peace of mind. The Smart Alarm works seamlessly with other Yale smart products and is compatible with leading voice assistants and Philips Hue smart lighting.

One account. Multiple properties.

Manage multiple properties under a single account within the Yale Home app. It's the ideal security solution to protect additional properties, such as your summer house or office. The Yale Smart Alarm makes multi-home security easier by placing complete control over your alarm system into the palm of your hand.

Protection that goes the distance.

Always feel protected throughout your property, both inside and out, by preventing any potential threats before they occur. Enjoy up to 1km range of protection with Yale Horizon+ Technology for the ultimate perimeter protection. Unlock extra features with our monitoring subscription plans, such as Cellular Communication, to ensure your system is always connected even if your internet is down, or Automated Call Alert, which allows you to nominate up to three people to receive an automated phone call in the event of an alarm activation. Third-party Professional Monitoring* is also available for additional peace of mind.

*Check Yale website for availability in your country.

Yale Smart Alarm Accessories.

Add up to 100 devices to your Yale Smart Alarm to suit your needs.

Yale Button

Can be used as a panic button or as a doorbell.

Yale Indoor Window/Door Contact

Easily monitor the status of your doors or windows.

Yale Indoor Motion Sensor

Detect any motion inside your home within 12 metres. Optional pet-friendly and sensitivity features.

Yale Indoor Siren

Deter any unwanted guests using sound and LED lights.

Yale Keyfob

Fully-arm or disarm your alarm or activate it with the panic button.

Yale Keypad

Arm, disarm or part-arm up to 4 areas within your home.

Yale Outdoor Door/Window Contact

Monitor the status of any door or window outside up to 1km from the hub.

Yale Outdoor Motion Sensor

Detect any motion outside your home within 12 metres. Optional pet-friendly feature and customisable detection sensitivity.

Yale Outdoor Siren

Alert your neighbourhood and help people to locate your home in case of any break-in.

Yale Pre Break-in Sensor

Monitor the opening of any door and window in your home. Vibration detection to detect intrusions before they take place.

Yale Smoke Sensor

Get notified of any fire-related emergency within your home.

Visibility and clarity so crisp, as if you were there.

Crystal clear protection 24/7.

Enjoy total peace of mind with the Yale Smart Cameras and Video Doorbell's clear 1080p HD image and night vision capturing every moment. The Yale Home app offers real-time live feeds and options to save images and record videos for later viewing so you always know what's happening at home – any time, any weather, from anywhere. For enhanced visibility and intruder deterrence in the dark, the Yale Smart Outdoor Camera features a motion-triggered spotlight.

Customisable security with intelligent detection.

Design your surveillance around your lifestyle and needs. The Smart Cameras and the Smart Video Doorbell all come with the ability to set up customisable detection zones, motion scheduling* and built-in AI technology**. Simply define the areas you want the camera to cover and exclude routine events, such as your car pulling into your driveway in the evening after work, to avoid motion-triggered notifications and recordings, or enable AI for accurate motion detections. Seamlessly integrate with other Yale Smart Security devices for full control and customisation.

*Motion Scheduling functionality will be available soon.

**AI features, such as pet detection, package detection, and vehicle detection are available with a subscription plan.

Surveillance for the modern smart home.

Experience surveillance the way it should be – convenient and intuitive – thanks to the Yale Home app. Control your security from anywhere and easily communicate with anyone using two-way audio talk. Get a "call" on your phone when the doorbell rings and detailed notifications whenever the built-in motion sensors are triggered. For added convenience, simply connect your Yale Smart Security devices to work together. For example, you can programme the Smart Indoor Camera to enter automatic privacy mode* when you disarm your Yale Smart Alarm. Voice command is another easy way to control your Smart Cameras and Video Doorbell. For example, you can ask your screen-enabled voice assistant to show you who is at your doorstep or check on your kids while you are busy cooking dinner without interruption.

*The Smart Indoor Camera must be paired with a Yale Smart Alarm for privacy mode.

More from Yale Smart Security.

Yale Smart Cabinet Lock

Smart security that fits neatly into your life.

The ultra-compact Yale Smart Cabinet Lock mounts inside most cabinets and drawers for safe and discrete storage. Ideal for childproofing, shared living spaces, home offices and holiday rentals. It safeguards cleaning supplies, medicine, alcohol, documents and valuables. Use the Yale Home app to remotely* unlock, share access, check status and track history.

Yale Smart Safe

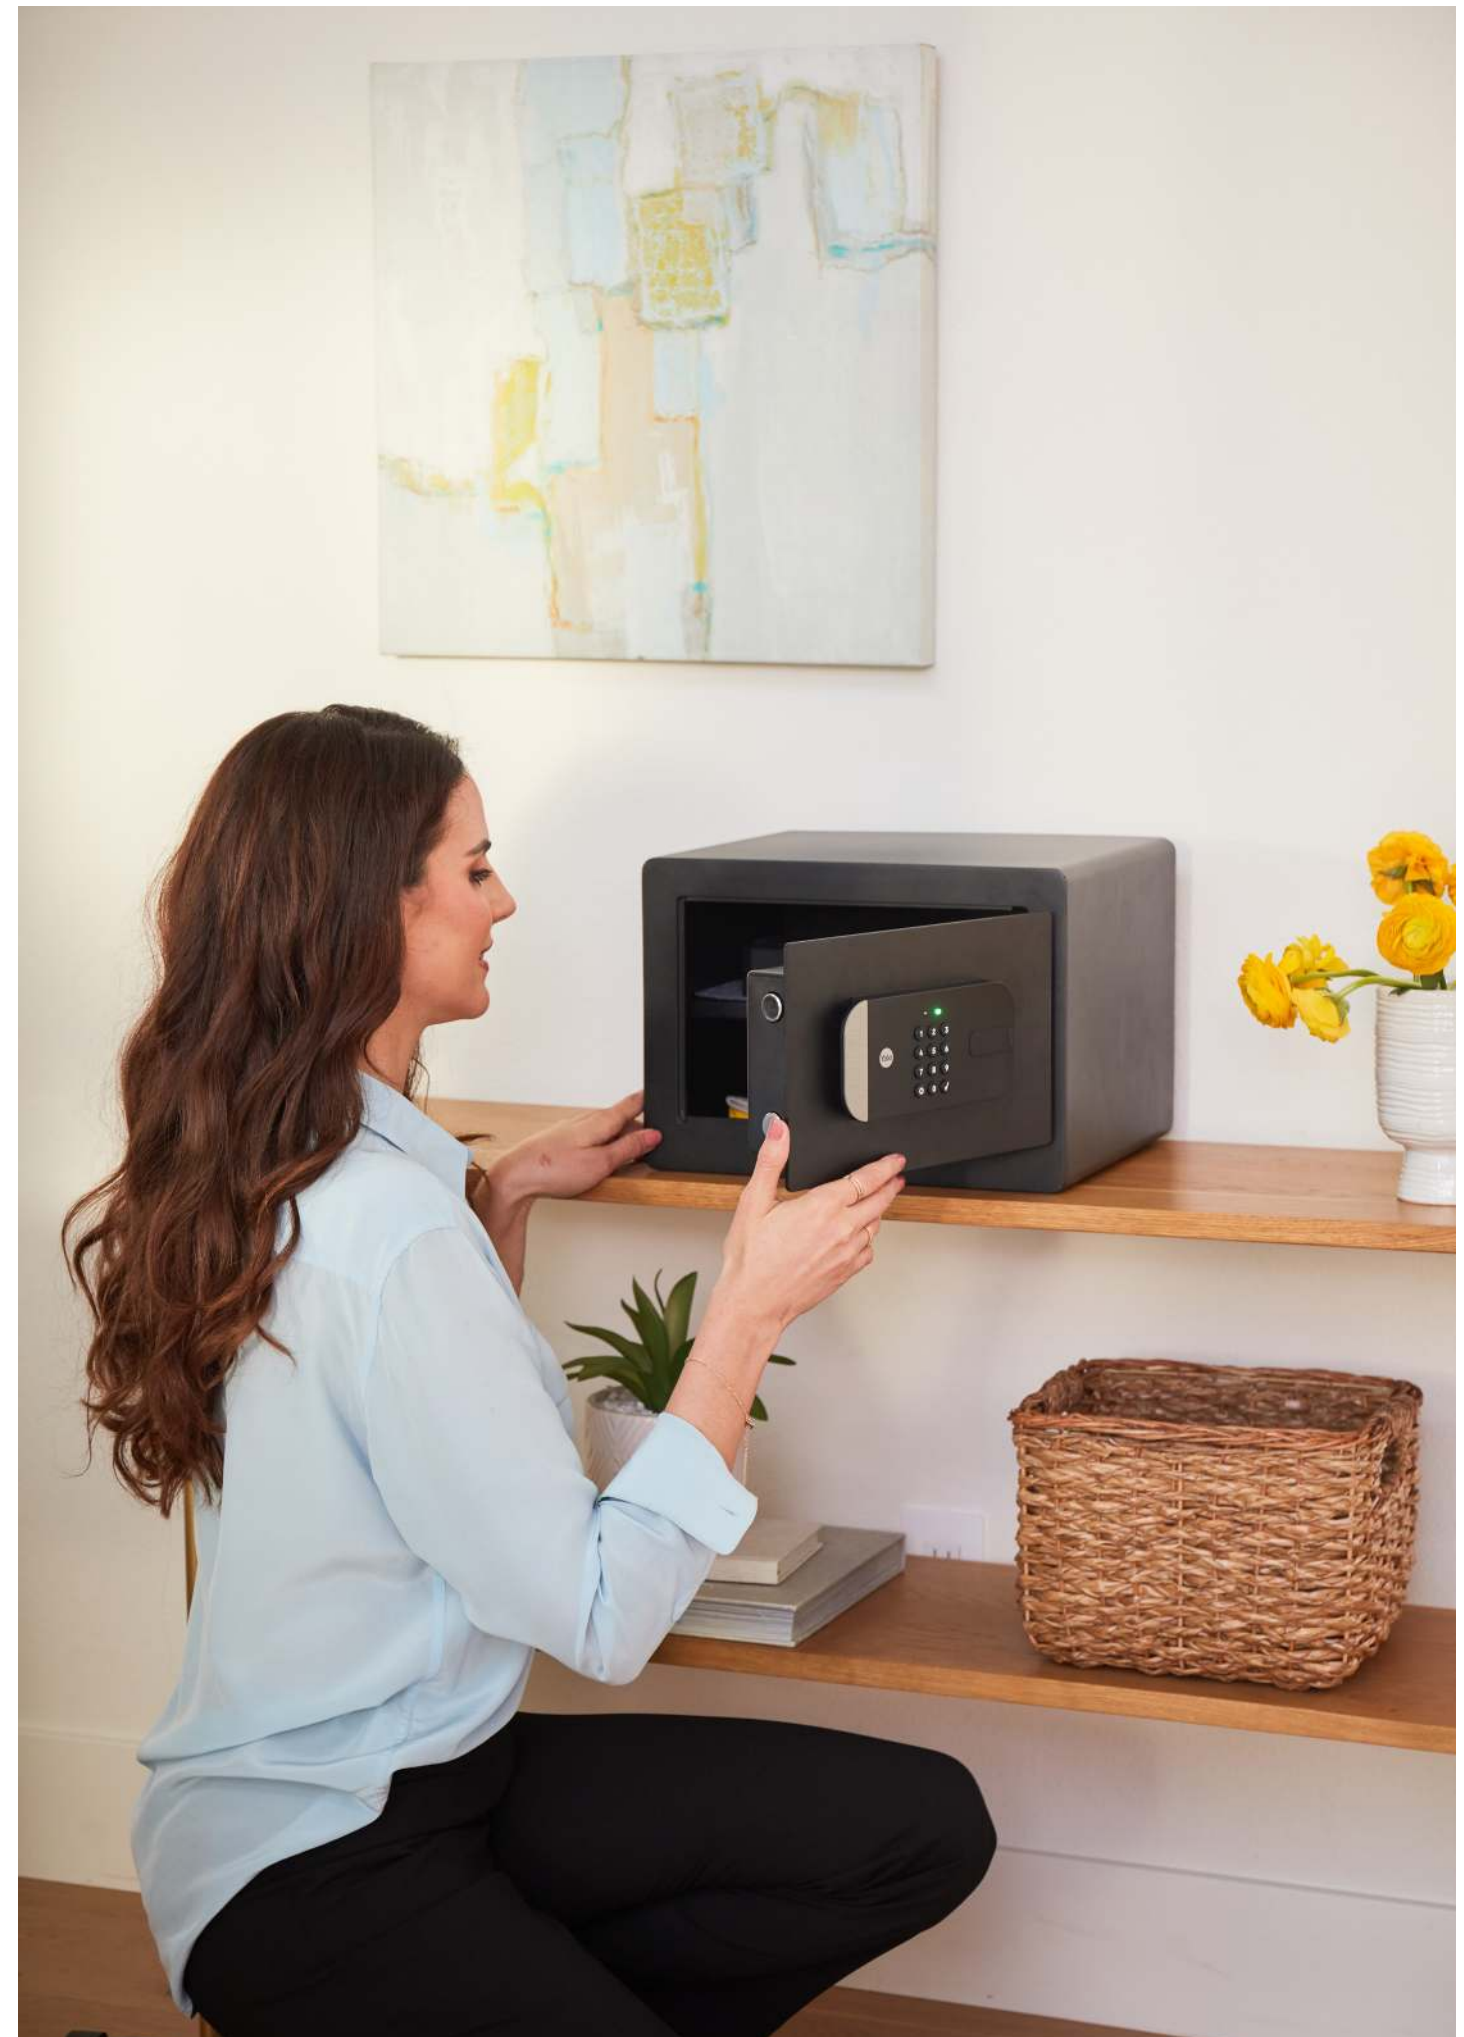

Smarter storage for the modern home.

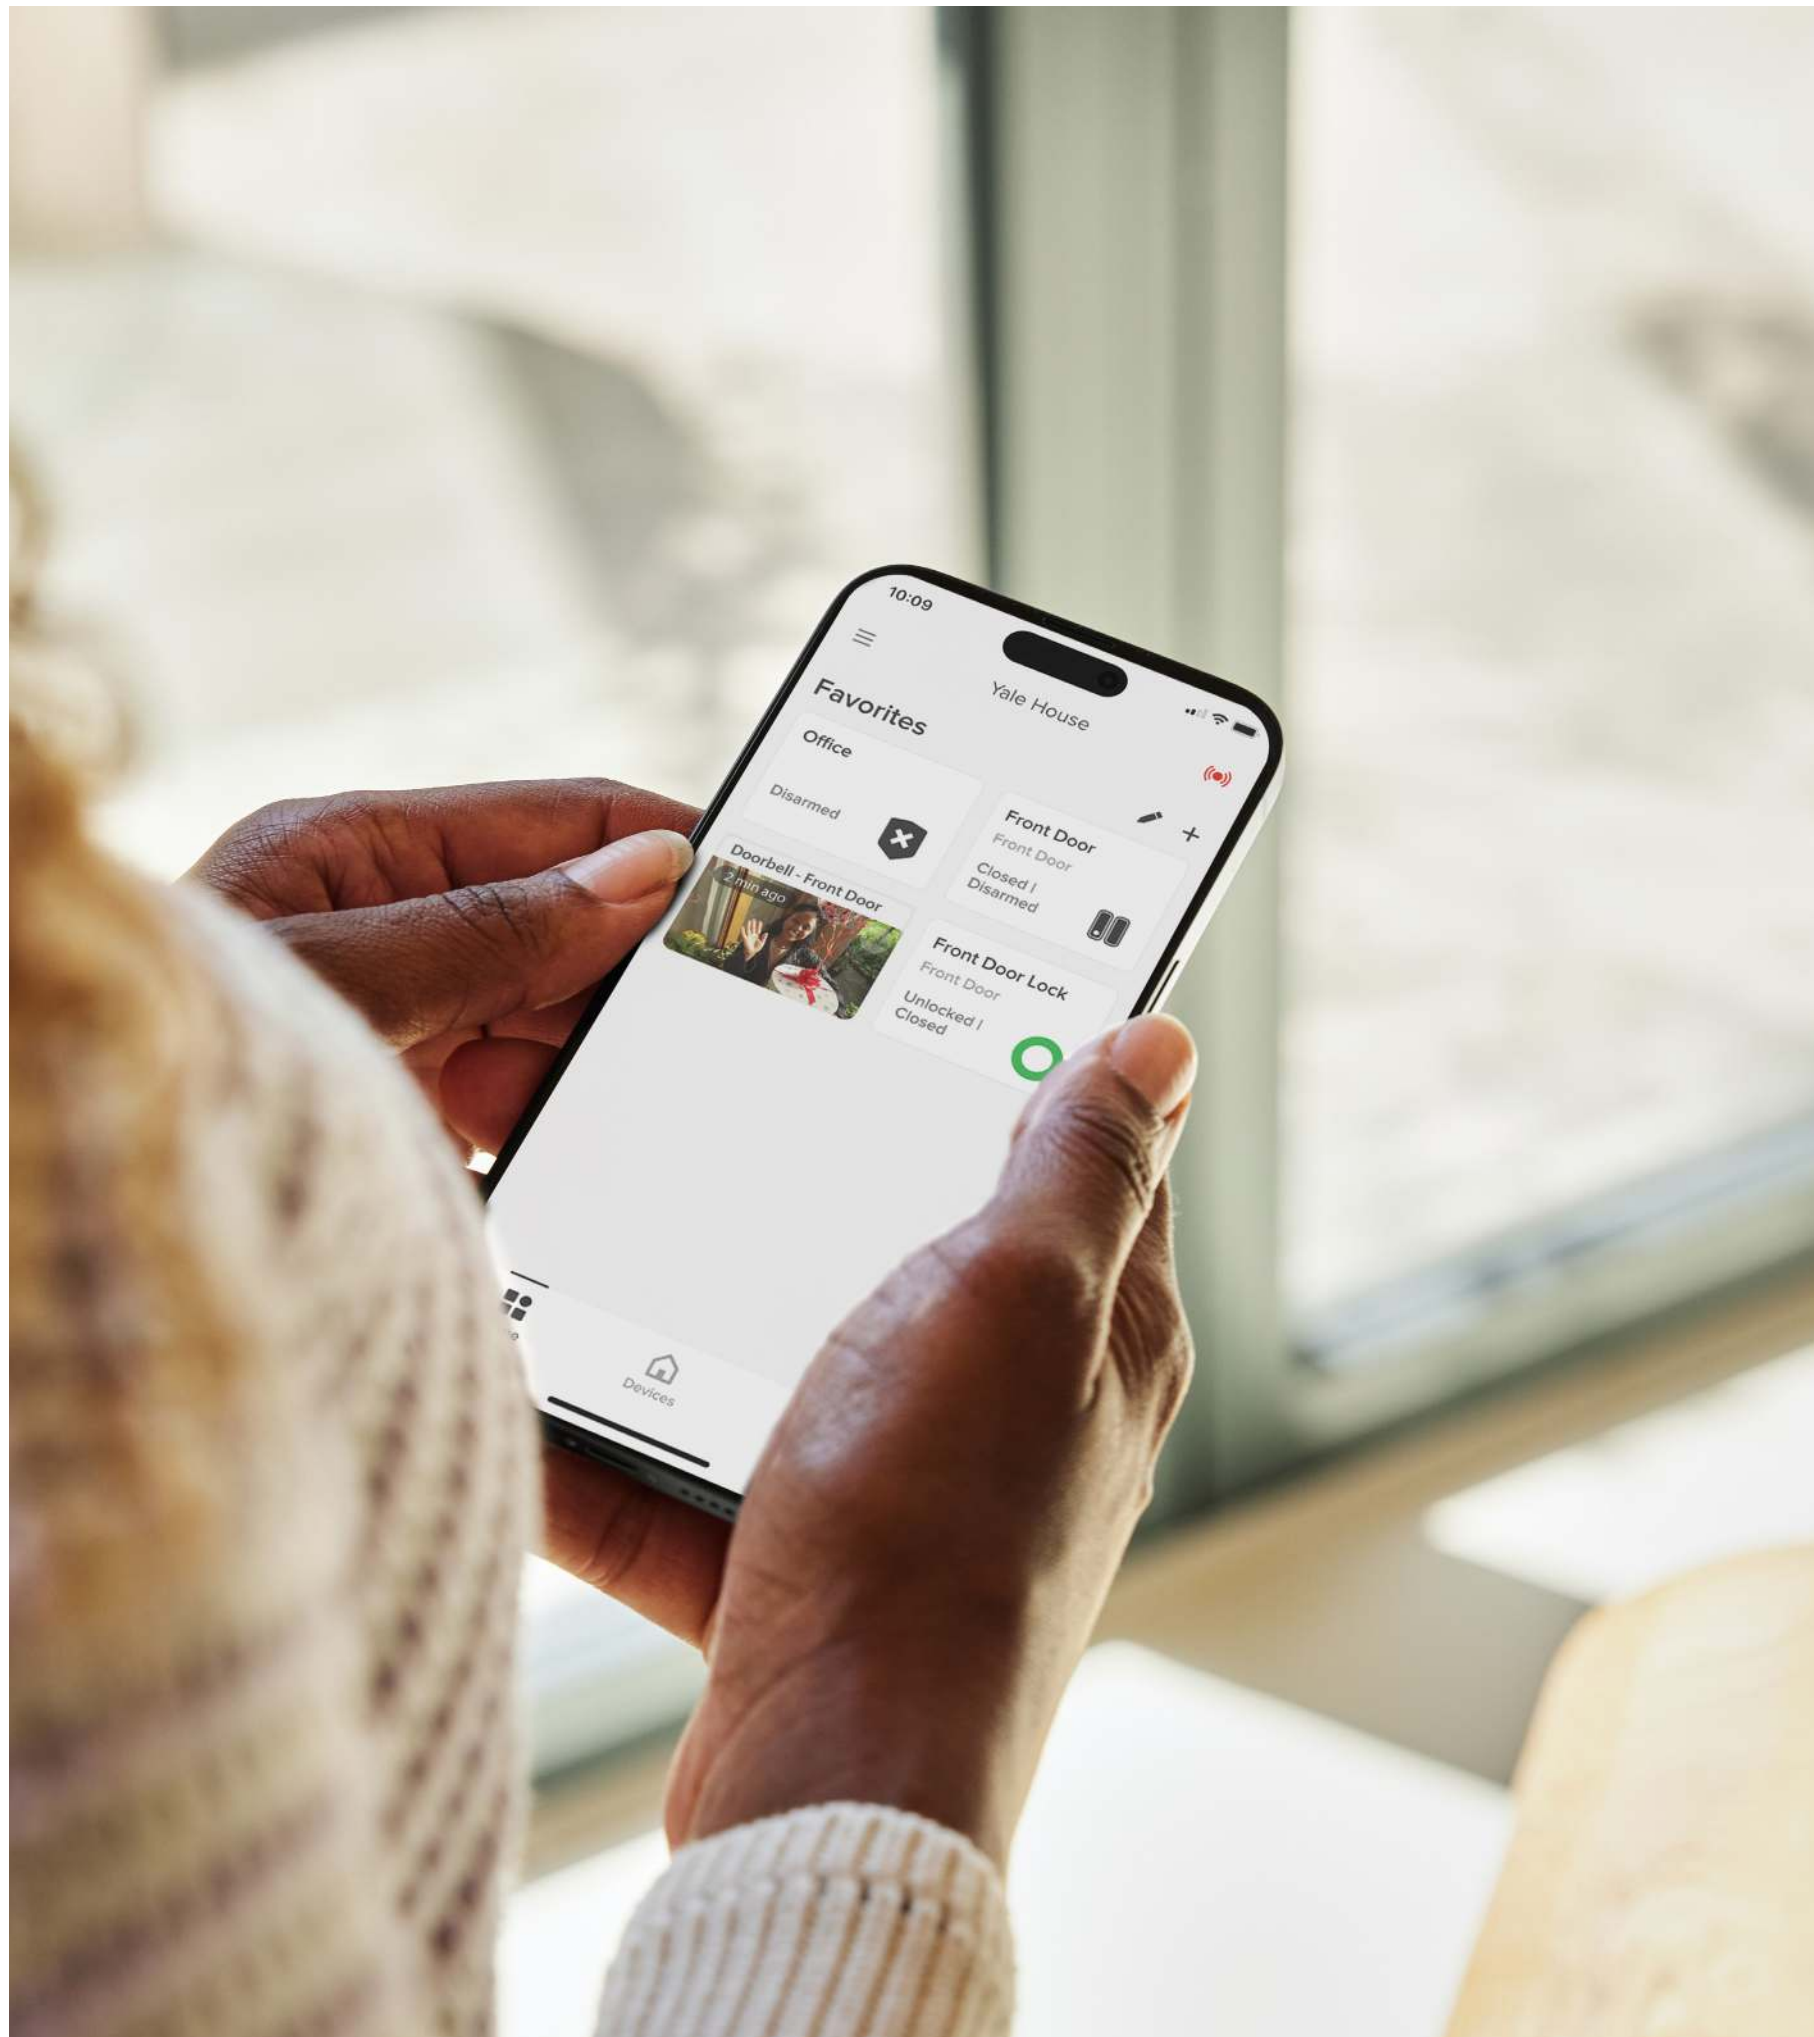

Protect your valuables with the Yale Smart Safe. Lock and unlock, share permanent or temporary access, check status, receive alerts and more – from anywhere* in real-time – all through the Yale Home app. Or open the Yale Smart Safe using voice assistants or the built-in keypad. Ideal for homes, home offices and holiday rentals, for whatever's worth protecting.

Yale Smart Openers for Gate and Garage

Seamless access to your automated garage or gate.

Manage access to your automated garage or gate remotely from the Yale Home app. Leave remotes behind and enjoy automatic opening upon approach or command with voice assistants. Stay connected with real-time alerts and remote monitoring. And schedule secure access for trusted people to enter your property.

The Yale Home app

Yale Home

One app for all your devices and properties.

Control all your Yale devices from the palm of your hand with the Yale Home app, for a seamless smart security experience.

- Remote app control
- Real-time notifications
- Activity monitoring
- Live status checks
- Customisable settings
- Integrations with leading voice assistants
- Advanced services with a subscription plan

...and more, all in the **Yale Home app!**

Security made simple

works with alexa

A collection of Yale smart home security products is displayed on a modern, geometric stand made of concrete and wood blocks. The products include two smart door locks (one black, one silver), a white wall-mounted camera, a black wall-mounted camera, a white ceiling-mounted camera, a black safe, a white keypad, a white base unit, and a yellow and blue circular Yale logo. A smartphone with the Yale app interface is shown at the top. The background is a textured, light-colored wall.
