MAX ALUMINUM SLIDER

System Features

- High Performance
- Efficiency and Durability
- Smooth Sliding
- Expand Your Views
- Thermally Broken Option
- Multiple Configurations
- Impact Resistant Glass
Available upon request

IMPACT RESISTANT

ACCORDION BIFOLD

Ideal for commercial and residential spaces

System Features

- Multiple Configurations
- Thermally Broken
- Hurricane and Impact Resistance Tested
- Multiple Glazing Options
- Inward or Outward Stacking
- Easy Operation and Installation
- Impact Resistant Glass (*Available Upon Request*)

NEW! Bottom rolling bifold system with flush threshold and concealed rollers

STOREFRONT

System Features

- Complete High-Quality Aluminum and Glass
- Enhanced Security Impact Resistant Glass *(Available Upon Request)*
- Tempered, laminated or insulated glass options
- Custom painted finishes available on request

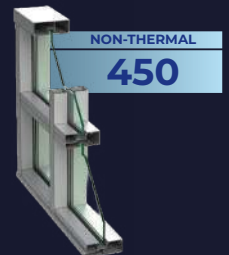

Series

Thermally Broken Series :

- 250 DT
- 251 DT

CURTAINWALL

System Features

- Integrated aluminum framing designed for large-scale
- High-performance glazing: tempered, laminated, insulated, or specialty glass
- Structural silicone or pressure-glazed options for a seamless glass façade
- Gaskets, anchors, and engineered supports included as part of the system
- Custom spans, finishes, and profiles

ALUMI-COMMERCIAL DOOR

System Features

- Durable 6063-T5 aluminum alloy frame with reinforced corner construction
- Wide selection of glass options (tempered, insulated, laminated)
- Hardware ready (offset pivots, butt hinges, center pivots, panic devices, handles)
- ADA-compliant bottom rails and custom width/height options
- Custom painted finishes and coordinated accessories for a complete entry solution

Battle Option (Upgrade)

- Thermally broken aluminum door system
- Enhanced impact-resistant glass

Ideal for projects requiring higher performance, durability, and protection

IMPACT RESISTANT

SUNNY LUX RESIDENTIAL ALUMINUM DOOR

System Features

- High-performance IG units make-up options with tempered or laminated glass
- Multiple adjustment features for easier installation
- Integrated hardware and locking solutions engineered for reliability
- Custom configurations and finish options for design flexibility
- Surface-applied grid options for custom design
- **Battle Option Available**

IMPACT RESISTANT

ALL-GLASS ENTRANCE DOORS

System Features

- Offered in a range of standard configurations featuring continuous rails or corner patch hardware options
- Aluminum frame and cladded finishes available
- Glass options include tempered and laminated
- Complete systems with a full line of hardware
- Available with PRL panic device and ladder pull hardware
- Custom finishes and configurations available
- **Battle Option Available**

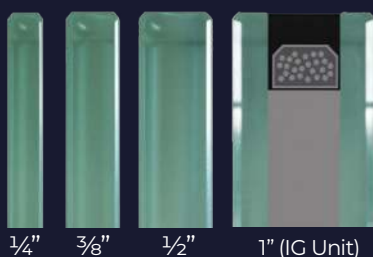

IMPACT RESISTANT

FULL-FRAMED CLADDED DOORS

Key System Features

- Aluminum framed construction with cladded exterior profiles
- Compatible with tempered, laminated, or insulated glass
- Integrated hardware and locking solutions
- Factory-engineered components for precise fit and reliable performance
- Custom sizes and finishes available

Tempered Glass Thicknesses

RAILING SYSTEMS

Available System Types

- Infinity Railing
- Rapid Dryset
- Elegante Standoffs
- Custom Post

System Elements

- Connectors, endcaps and custom bend corners
- Custom paint finishes available
- Custom fabrication to suit any project requirements
- Custom-fabricated for a precise fit

Glass Options

- Tempered
- Laminated
- Low Iron
- Textured
- SentryGlas®
- Sandblasted
- Tinted

SHOWER UNITS

System Features

- Frameless swing doors (pivot or hinge) – 3/8" or 1/2" glass
- Top-hung sliding systems: Tiffany & Ruby models
- Contoured semi-frameless sliders (1/4"-3/8" glass)
- Hardware: rollers, hinges, handles, brackets, and seals
- Water-resistant gaskets and sweeps for leak-minimizing performance
- Custom sizes, configurations, and finishes to match luxurious interiors
- Optional decorative or spot resistant glass

ENDUROSIELD

PRL's spot resistant glass coating protects your shower and bath, keeping glass bright, clear, and easy to maintain. It resists stains and discoloration from limescale and hard water and reduces cleaning time in half with just a squeegee.

For proper care, follow the coating manufacturer's cleaning instructions.*
